

Sailesh SC

Mechanical Engineering Student | CAD & Product Design | Manufacturing
+91 87787 45383 | saileshchandrasekar2463@gmail.com | LinkedIn: [Sailesh SC](#) | Vellakovil, Tamil Nadu

PROFILE SUMMARY

Final-year Mechanical Engineering student with hands-on CAD modelling, product design, and manufacturing exposure gained through internships, industrial visits, and design competitions. Proficient in AutoCAD, SolidWorks, CATIA V5, Autodesk Fusion, and Siemens NX. Demonstrated ability to design, troubleshoot, and rebuild mechanical systems from concept to working product, with a strong grounding in Design for Manufacturing (DFM) and production processes.

TECHNICAL SKILLS

- CAD & Design Software:** AutoCAD, SolidWorks, CATIA V5, Autodesk Fusion, Siemens NX
- Core Competencies:** Product Design & Development, CAD Modelling, Design for Manufacturing (DFM), Manufacturing Processes, Quality Inspection & Dimensional Accuracy
- Productivity Tools:** MS Word, MS PowerPoint
- AI Tools:** ChatGPT, Claude, Gemini, Perplexity for technical research, documentation, ideation, data analysis, and presentation development.

EDUCATION

B.E. Mechanical Engineering — Kangeyam Institute of Technology, Kangeyam CGPA: 8.24 (up to 6th Semester)	<i>Pursuing</i>
Diploma in Mechanical Engineering — Arulmurugan Polytechnic College, Karur Percentage: 79%	<i>2024</i>
SSLC — Kurinchi Matriculation School, Vellakovil (All Pass)	<i>2021</i>

PROJECTS & DESIGN ACHIEVEMENTS

- Go-Kart Restoration & Repair Project** — Kangeyam Institute of Technology
- Diagnosed and repaired a non-operational Go-Kart built by senior students, restoring it to full working condition as part of a two-member team.
 - Applied mechanical troubleshooting, assembly, and hands-on repair skills; awarded 1st Prize at the college Science Exhibition.
- Design Competitions & Workshops**
- Selected for the second round of the 24-hour ICT Academy Design Week Challenge, held in collaboration with Autodesk at Ramakrishna College of Engineering.
 - Participated in CAD Modelling events at Kongu Engineering College and Hindusthan College of Engineering and Technology, applying parametric design and modelling techniques under time constraints.
 - Attended an industrial visit to DMW CNC Solutions, Perundurai, to study CNC machining and production workflows.

INTERNSHIP & INDUSTRIAL TRAINING

Coral Engineering Works India Pvt. Ltd. Trained in coil manufacturing, quality inspection, and dimensional accuracy checks.	<i>15 Days</i>
PRS Compressors Pvt. Ltd. Gained exposure to compressor assembly, engineering drawings, and production processes.	<i>15 Days</i>

AREAS OF INTEREST

Production Engineering • Product Design & Development • CAD Modelling • Design for Manufacturing (DFM)
